
Gubelin Gem Lab - News-Flash #9, Thursday, September 10, 2015

Gubelin Gem Lab launches redesigned gemmological report

Beginning this coming Monday, 14th September 2015, gemstones submitted to the Gubelin Gem Lab will receive a completely redesigned gemmological report.

Aside of the revamped report, the Gubelin Gem Lab proudly launches some other great new services, such as the Gemmological Profile, a carefully crafted, customized booklet that can be ordered to accompany the gem lab report. The Gemmological Profile features more specific information on the individual gemstone, and primarily addresses retail clients and privates. For now, this service is available for Burmese rubies and sapphires, Kashmiri sapphires, and Colombian emeralds of a certain quality, more to follow soon.

To learn more about these new services, please come and see us at the September Jewellery fair in Hong Kong at our booths 6Q00 at AWE, and 3M057 at HKCEC.

A Gubelin Newsflash is issued by the Gubelin Gem Lab whenever considered appropriate, to alert the jewellery and gemstone industry on an important issue. Your e-mail address is on the distribution list of the Gubelin Gem Lab. To unsubscribe from the mailing list, reply to info@gubelingemlab.com, and type 'unsubscribe' in the subject line.
